

we do not want you to implement any proposal that would lessen Indiana's Telephone Privacy law protections. I don't get unwanted phone calls that were interrupting my dinner, I use to get dozens of phone calls per week, not I haven't received one of these foolish phone calls in weeks. Many times with I would answer, there would not be anyone there. It works great the way it is, DON'T mess with it. It works fine the way it is. Do something else with your time. Thank you A satisfied customer of the Indiana Telephoneprivacy act.
